

LIMING PASTE

Ready to use white paste to ceruse wood with open pores. LIMING PASTE fills the wood grain white to accentuate the contrast of the nerves.

» Natural white paste to ceruse the wood.

EXTRA

INDOOR

1kg

PREPARATION

Especially for wood with open pores like oak. It is recommended to brush first the wood.

APPLICATION

Pre-treat the wood with FORTICO or a HARDWAXOIL from the Ciranova® range. Apply the white paste generously with a brush. Let dry for at least 1 hour and remove the excess with sanding paper P180 until the desired result.

FINISHING

After removing the excess paste, make the surface dustfree and protect the LIMING PASTE with the same product as the prime coat.

TECHNICAL DATA

Product type
