extra component:	-
mixing ratio:	-
pot-life:	-
density:	DEPENDS ON THE COLOR
viscosity:	DEPENDS ON THE COLOR
colors:	6 pigments - 1 Clear Stain
solid content:	depending on the color
gloss:	-
thinner:	Clear Stain AQC 7520
coverage per coat:	-
Coverage USA per coat:	-
drying:	-

APPLICATION MATERIAL

PACKING

1lt - 5lt

APPLICATION

preparation substrate:

-

processing:

Create your own stain by mixing the tinters in Clear Stain AQC 7520
Do not add more than 30% of tinters.
A higher concentration can effect the quality of the protection later.
For mixing standard colors, please contact the technical staff of Ciranova.

PROTECTION

The aquacolor can be protected with UV Oil, Natural Oil, waxes and lacquer

IMPORTANT INFORMATION

The final color depends on the type of wood, sanding, wood preparation and the applied quantity. For this reason its always recommended to make a test first before starting production.
- Only use stainless material.
- Clean all material immediately after use.

SHELF-LIFE

In well-closed and original packing: minimum 12 months

WAREHOUSING

by 10 – 40 °C

CLEANING

HYDRO CLEANER 7984

ATTENTION ⚠

"All tests and application methods are done with the above-mentioned Debal Coatings components.
We are not responsible for application with other materials, unless written agreement from Debal Coatings"
